PROFESSIONAL PROFILE

Results-oriented Senior Operations Executive with 3+ years driving process excellence, procurement lifecycle ownership, and cross-functional coordination in high-growth environments. Combines operational rigor with strong analytical capability across Power BI, Python, SQL, and Advanced Excel. Proven at reducing operational friction, improving reporting velocity, and enabling data-backed decisions — built for product-company operations.

WORK EXPERIENCE

Operations & Analytics Executive

Oct 2024 – Dec 2025

Storm Infracon Private Limited

Construction & Infrastructure · 1 yr 3 mos

- Ops Analytics:** Designed & owned Power BI dashboards for sales pipeline, vendor SLAs, and payment cycles — improved decision velocity by **20%**.
- Procure-to-Pay:** Managed full P2P cycle (PO creation, vendor onboarding, invoice reconciliation, payment follow-ups); cut delays by **25%** via SOP-driven workflows.
- Vendor Management:** Negotiated and maintained 15+ vendor panel; standardised evaluation ensuring on-time delivery and quality compliance.
- Cross-functional Coord:** Operational bridge between Sales, Production & Finance — structured handoffs reduced inter-team escalations.
- Process Automation:** Automated MIS reporting via Excel Power Query, saving ~6 hrs/week of manual effort.
- Revenue Ops:** Supported pricing negotiations, contracts, and order lifecycle tracking for smoother revenue recognition.

Operations Executive

Jun 2017 – Jan 2018

Chetu India Pvt Ltd

IT Services & Software · Large Enterprise · 8 mos

- Event Operations:** Owned end-to-end operational planning for software exhibition events — logistics, vendor delivery, and on-ground compliance.
- Procurement Coordination:** Managed RFQs, vendor selection, and PO workflows ensuring timely delivery within approved budgets.
- Stakeholder Management:** Coordinated across 5+ internal and external stakeholders to streamline vendor approvals and reduce cycle time.
- Cost Optimisation:** Negotiated preferred-vendor agreements achieving measurable savings on repeat operational categories.

Risk Assessment Executive

Oct 2016 – Jun 2017

Onicra Credit Rating Agency of India Ltd

BFSI / Credit Intelligence · 9 mos

- Data-Driven Risk Ops:** Conducted background verifications and credit risk assessments — 100+ cases/month with high accuracy and compliance.
- Cross-dept Ops:** Collaborated with address verification, education validation, and HR teams ensuring data integrity across the pipeline.
- Pattern Analysis:** Identified discrepancy patterns; proposed process adjustments improving accuracy and reducing rework.

Noida, India

Open to Relocation

- End-to-end pipeline (Python, Pandas, NumPy) to clean banking records, handle missing values, and surface customer behavior trends via Matplotlib & Seaborn.
- Outcome: Raw operational data → structured, presentation-ready insights for business ops and analytics roles.

Operations Intelligence Dashboard — Power BI

- BI dashboard over real operational data — cleaned source, modelled relationships, built views across sales, vendor, and payment KPIs.
- Outcome: Full BI ownership from raw data to stakeholder-facing reporting without complex query layers.
